

**TOOLS FOR INSTALLATION**

## EASY INSTALLATION

- Hacksaw
- Long Handled Pliers
- Heavy Hammer
- Gloves & Glasses
- Solid Piece of Scrap Wood

**1**

### SNAP.

Break away the two stakes on each end of the edging.

**2**

### PLACE.

Hand-form the edging to shape, then trench or pound edging directly into the ground.

**3**

### STAKE.

Drive down stakes to connect and secure each section. Stakes should be flush or slightly lower than the edging.
